Brighton

Our exciting city by the sea

Ever since royal party animal George IV (The Prince Regent) fell in love with Brighton back in the 18th Century, the city has been a magnet for visitors in search of fun and fresh sea air.

Brighton is a Regency period city with majestic Regency squares, crescents and the most famous building – The Royal Pavilion. Brighton is also famous for its Pier which is full of attractions and entertainment.

Today, Brighton’s reputation is a welcoming city with a passion for culture & creativity, a bohemian lifestyle and alternative people. Brighton combines the charm of a coastal resort with the energy of a cosmopolitan city.

Known for its free spirit, artistic community, and progressive values, Brighton is one of the UK’s most diverse and culturally rich cities and is sometimes referred to as “London by the sea”.

Kids Courses

At the heart of our program is a simple belief: children thrive when learning feels like discovery. Through engaging, communication-rich activities, your child will develop vital language skills from an early age—boosting both recognition and performance at a remarkable pace.

Whether your child is just beginning their language journey or already building confidence, our courses are designed to nurture curiosity and inspire growth.

Each class follows a level-based syllabus and blends reading, writing, listening, and speaking exercises to create a vibrant and supportive learning environment.

Let's turn language learning into a lifelong adventure.

Your child develops key skills from an early age through communicative activities that contribute to the rapid development of their language recognition and production. The course is designed to ignite your child's desire to learn through the initial stages of language learning or to facilitate and increase confidence already gained. A range of exercises are used in class through a syllabus which is dependent on the level of the student.

Kids Courses

Learning English can be exciting—and we’re here to make it fun! In our kids’ courses your child will play games, talk with friends, read cool stories, and write about things they love.

Every activity helps your child get better at speaking, listening, reading, and writing in English.

Whether your child is just starting out or already know a little, this class will help your child feel more confident and curious. We tailor the lessons to their level, so they will always feel challenged—but never overwhelmed.

So get ready for your child to explore English in a way that’s full of adventure, creativity, and smiles!

Explorer 2 supports children aged 10 to 12 in building essential language skills through dynamic communicative activities. These early experiences help develop their ability to understand and use language effectively, laying a strong foundation for future learning.

The course is crafted to spark curiosity and motivation in young learners—whether they’re just beginning their language journey or looking to strengthen existing skills. Lessons are tailored to each student’s level and include a balanced mix of reading, writing, listening, and speaking exercises to ensure comprehensive development.
